

Seed Adhesive – For a perfect adhesion of seeds!

Our **Seed Adhesive** is the perfect solution to improve the adhesion of seeds and cereals on your baked products. This clean-label ingredient is characterised by a simple application and reduces the loss of seeds on your products.

- ✓ CLEAN LABEL
- ✓ NATURAL
- ✓ also in ORGANIC

Selected natural ingredients and a gently processing guarantee constant top quality and excellent functional properties of **Seed Adhesive**. It is not a subject to any GMO declaration and is easily declared as wheat flour.

| Typical chemical and physical data | |
|------------------------------------|-------------------|
| Appearance: | powder |
| Odor: | characteristic |
| Taste: | characteristic |
| Colour: | slightly brownish |
| Moisture: | 3.0 – 10.0 % |
